Washington City Notes.

The Washington Republican, a "Stalwart" organ, hits Hayes a heavy lick. The Republican says: The receiver of stolen goods is as bad as the thief, especially when the receiver so naturally, as in this case, locks arms with the culprit in the prisoner's box.

The hilarious Martin, of the First District, publishes a card in the Washington Republican. He says: From 1867 I have been an open and avowed Republican, and expect to heartily work and cooperate with the Republicans in the next Congress. Whether Martin shall serve his country in the 46th Congress is yet to be settled. Our advices from Washington incline us to the decided opinion that Mr. Martin will not serve as a member of that to be memorable body. Major Yeates was undoubtedly elected, and a fair canvass of the votes in the First District will give him the seat. Martin's career in Congress promises to be brief.

There was almost a sensation in the House Friday when McCook, of New York, alluded pointedly to Mr. Fernando Wood as the "leader of the National Democratic party in Congress."

The eloquent (!) Mr. Willis, of New York, distinguished the close of his congressional service by a great speech on Thursday on the Geneva Award. Mr. Willis, it is understood, will, during his retirement, turn his attention to elocution.

Col. Pat Donan left his Richmond sweetheart and went to Washington to interview Hayes. The brilliant P. D. wrote Hayes a letter. Like Proctor Knott in his famous Duluth speech, Hayes got many of the most valuable ideas in his late message from that letter. P. D. says that "Hayes is a white man." The interview will be published in one of the Cincinnati papers.

Hon. Joe Davis made one of the most telling speeches on "Southern Claims" that was made in the last Congress. He recently received from a prominent member of the Michigan Legislature, a letter commending the speech, from which we are permitted to make the following extract: "During the late campaign in Michigan I met with a copy of your very able speech, delivered in the House May, 1878, on 'Southern Claims.' I exceedingly regret that our Central Executive Committee had not distributed thousands for every one sent out. The next contest will be this PEOPLE, LIBER[illegible] LOCAL SELF-GOVERNMENT vs. GR[illegible] Now is the time to prepare for the fight. A more effectual weapon for this country than your speech cannot be used. Send all the copies you can spare."

The bill passed by the House at its last session, reducing the tax on tobacco from 24 cents to 16 will be considered by the Senate Committee to day. The pros and cons will be heard by the committee and a full hearing will delay any action in the premises before the holidays Representatives from the tobacco district talk hopefully of the final success of the bill in the Senate.

The excitement over Blaine's resolution was spasmodic. It takes something startling; like the "irregularities" of a doorkeeper, to wake the House up. So the House went to work Thursday and passed the Pension bill, further discussed the Geneva Award bill, killed a petty job that had been smuggled into an appropriation bill, and decided to be satisfied with a fortnight's recess for the holidays. The Pension bill appropriates $29,366,000.

The canvass for the Secretaryship of the Senate is growing in interest. Our gallant, gifted Waddell, we are happy to learn, is making fine headway. His most formidable opposition now seems to be Senator Dennis, whose time expires on the 4th of March. The "hitched out" are numerous and of all speeds and weights. The executive clerkship of the Senate is also elective. That will be held open until the "issues are pooled." There will doubtless be an executive session of the Senate after March 4th. If the session is not called by Hayes it will smack of a littleness that some people are charitable enough to believe he is above.

Such contemptible considerations as a Democratic organization of that body would hardly influence even an acting President.

Postmaster Hubbs, of New Berne, and other gentlemen are in Washington to urge the purchase by Congress of certain property in New Berne for public purposes. The matter has been referred to a sub-committee and Tuesday fixed for a hearing.

The New York Herald's editorial treatment of Blaine's speech is generally commended by Democrats in Washington. The Herald recurs to the subject in its Friday's issue. It says that Blaine does not reason either shrewdly or honestly on this point, and that he merely assumes, but does not show that there is a grievance because the negroes do not vote with his party. We believe, on the contrary, that the negroes have abandoned that party, and that this is an evidence of their keen perceptions. They have found that it is not to their interest to continue to act with the party that simply made them go bail for the hordes of thieves, forgers, pickpockets and scalawags of every stripe that were inflicted upon the South as republican officeholders in the carpet-bag regime.

Mr Bayard made a characteristically able and convincing speech in the Senate on Friday in support of Mr. Edmund's bill amending the machinery for the election of President. In the opinion of those of both parties who have given the matter due consideration, it contains the best plan yet devised for preventing the recurrence of the trouble of 1876, and probably the best practicable plan, and has the great merit of not departing from existing Constitutional lines. First and foremost it leaves to the State absolutely the duty of deciding who are its Presidential electors, by such process as it pleases to prescribe, and thus does not permit Congress to constitute itself a returning board and "go behind the returns." In the next place it leaves the States time for this process by appointing the first Tuesday in October for the election, and the second Monday in January for the meeting of the electors, by which an interval of three months is left for a "fair count" and any necessary litigation before the courts. Had this arrangement been in force in 1876, the work of the Florida Republican electors would have been undone and a different set of electors would have cast the vote of the State, inasmuch as the Supreme Court overruled, but too late, the action of Dennis, McLin, and the virtuous Cowgill. Congress is then to meet to receive and count the votes on the second Monday in February in joint convention. When a certificate is objected to, each House is to withdraw and consult separately. If there is only one return from a State, both Houses must concur in order to reject it. If there be more than one, that which is approved by the proper State tribunal must be accepted. As to whether the tribunal is proper or not, a negative decision can only be made by both Houses concurrently. If there be no State tribunal's decision or more than one return, a vote can only be counted by the concurrence of both Houses

During the week the silver men in the House came out in force, introducing various measures to make the Dollar of our Fathers bankable and redeemable at the Treasury in greenbacks, and to redeem and suppress the trade dollar. Mr. Durham, of Kentucky, moved a suspension of the rules to pass his bill for tkus disposing of the trade-dollar, and though he failed of the necessary two thirds, he secured a majority of 154 to 91. Mr. Fort, of Illinois, was unfortunate in his endeavor to pass at once a bill threatening any bank that refused to receive the legal-tender dollar on a par with gold and paper with a withdrawal of its circulation. He found 150 supporters against 89 in the negative.

Gen. Scales introduced an important bill fixing the value of trade and Mexican dollars and making the legal-tender silver dollar the unit of value. The effect of this bill if it becomes a law will be the retirement of the gold dollar which has ever been regarded nuisance. The bill provides:

That the trade dollar of the United States and the Mexican dollar, which is of the same or greater weight and fineness than the American legal-tender silver dollar of four hundred and twelve and a half grains of Troy of standard silver, as provided in the act of January eighteen hundred and thirty-seven, shall be receivable at the Treasury of the United States and its several offices, and at the several post-offices and land-offices, at the value of one hundred cents; and all such sums, when so received, shall be deposited in the different mints of the United States under the direction of the Secretary of the Treasury, to be recoined into the legal-tender dollar of the United States of four hundred and twelve and a half grains Troy weight.

SEC. 2. That the legal-tender silver dollar of four hundred and twelve and a half grains Troy shall be the unit of value.

The Yellow Fever Investigation

By Telegraph to the News.

WASHINGTON, Dec. 16.—A Joint meeting of the Senate and House Committees on the Yellow Fever inquiry was to have been held this morning, but less than a quorum of the House Committee put in an appearance. The Following subCommittees on the part of the Senate were appointed to visit New Orleans and vicinity: Eustis, Lamar and Paddock. To visit Memphis and vicinity: Harris, Matthews and Conover. Corresponding sub-Committees will be appointed by the House Committee to conduct these branches of the investigation in conjunction with the Senators above named, during approaching holiday recess of Congress. It has also been arranged that the House and Senate Committees in Washington shall hereafter meet jointly, although they will vote separately in same manner as "Committees of Conference."

The Hot Springs Commission.

By Telegraph to the News.

WASHINGTON, Dec., 16.—The President to-day nominated as commissioners of the Hot Springs in Arkansas, Aaron H. Cragin, of New Hampshire; John Coburn of Indiana; and Marcellus L. Stearns, of Florida. These appointments were also confirmed to-day.

Making the Banks Pay.

Before the election investigation has been pushed very far below the surface of things, we feel authorized to predict that it will show that the National banks have been freely bled by Republican campaign committees in a number of states. The Radical managers have plainly told the banks that they were a heavy load for the party to carry, and they they must pay liberally for transpotation, and they have paid

"I always let a cold go as it comes—one says; which means that he overworks the system in getting rid of a cold rather than assist it by using Dr. Bull's Cough Syrup. Price 25 cents.

Congress

WASHINGTON D. C. 16.—SENATE.—The Chaplain in his opening prayer alluding to the death of Prince Alice said: "Oh Lord, for all that mourn this day, alike in palaces of Kings and in the lowly dwellings of the poor, we beseech Thy mercy and Thy favor."

A number of bills were introduced during the morning hour and referred, among them the following: By Mr Dawes, of Mississippi, for a fire proof building for the national museum, referred to the committee on public buildings and grounds.

By Mr. Grover, of Oregon, bill to repudiate employment of labor on public works of the United States. Referred to the committee on Commerce.

Mr. Coke of Texas, submitted a resolution instructing the Committee on Judiciary to examine into the expediency of repealing all laws providing for compensation of U. S. Attorney by means of fees and passage of laws and fixing salaries for such officers. Agreed to.

Mr. Beck, of Ky., submitted a resolution that the Secretary of the Treasury be directed and required to appear before the Senate in person on Wednesday next at 11 o'clock p. m., to inform the Senate what reason, if any, he has for failing to answer the resolution of the Senate of the 3rd of December, 1871, in regard to the amount of silver coin received for customs duties, and whether he has applied it or any part of it to the payment of interest on bonds and notes of the U. S., and if not so applied, to state the reason why, &c. During his remarks on the resolution, Mr. Beck said the Secretary of the Treasury had increased the bonded debt of the U. S. to the extent of $704 499 450, by selling bonds and hoarding gold. After a brief debate the resolution was laid over.

At the expiration of the morning business, the Senate took up the resolution of Mr. Blaine, in regard to citizens being deprived of their Constitutional rights. After a brief debate of a colloquial character, the amendment offered a few days ago by Mr. Thurman, directing further inquiry as to whether any person had been dismissed from employment by reason of his vote, or whether money was raised by assessment or otherwise upon Federal office holders or employes for election purposes, and also to inquire into the conduct of supervisors of elections, was agreed to without division

A bill appropriating $150,000 for the deficiency in the railroad mail transportation, has been reported from the Committee on appropriations and is to be acted on to-morrow. Chalmers moved to suspend the rules and pass a bill making it a penal offence for any officer, agent or contractor of the U. S. to intimidate with election members of Congress or of the president by contribution of money, or by use or abuse of official privilege, or by bribes, threats, influence, &c.; also making it a penal offence to solicit or receive contributions for election purposes from persons in the employment of the Government. Rejected—yeas 142, nays 103 The Republicans voted no, Democrats aye. Kelley, of Pennsylvania, voting with the Democrats.

The discuss on to-day was very animated, the Democratic Senators, and particularly Messrs. Butler, Merrimon and Ransom, persisting in the demand for a open investigation, against it with great activity.

After some opposition from the Democratic side and an un-successful motion by Senator Matthews to take up the Texas Pacific bill, the vote on that motion being 26 yeas, 36 nays, Blaine's resolution regarding the deprivation of citizens of their rights was taken up, the question being on Thurman's amendment, which was agreed to without division.

Conkling moved as an amendment that the investigation be made by a select committee of nine, instead of the Judiciary Committee, which was agreed to. Mr. Blaine then submitted an amendment authorizing the Committee to take testimony by itself or by any sub-Committee, and to visit any portion of the country when such visit may in their judgment facilitate any portion of the object of the inquiry. Butler, of S. C., moved an amendment so as to provide that the Committee or any sub-Committee thereof shall sit with opened doors. A very animated debate followed, participated in by Messrs. Butler, Eustis, Bayard and others, contending for open investivation. Butler's amendment was rejected by a vote of 30 to 33 a strict party vote. A subsequent amendment that the Committee or any sub-Committee should sit with open doors, when requested to do so by any member of the Committee, was also rejected, by a strict party vote, and without further action the Senate adjourned until to-morrow.

The House has been engaged in reference to bills Among them was one introduced by Mr. Wood for the payment of duties on imports in U. S. notes.

A resolution was adopted calling on the Secretary of the Treasury for information whether there was any balance on loan account standing to the credit of the Treasury in any National Bank on the first of March, 1878, or on the first of any succeeding month until January 1879, with the name of such banks and amount held by each.

WASHINGTON, Dec. 16.—The Potter Committee held a meeting to-day and took action upon the application of Attorney General Cocker, of Florida, to be permitted to introduce evidence corroborative of his statement last winter that he had seen Governor Noyes and Governor Stearns come out of the room where the board of canvassers were in session, although for an hour or more he had been unable to obtain admission, which statement was emphatically denied by Noyes and Stearns. The committee to-day decided that as this conflict of veracity is not a material point in the subject of the inquiry, they will not hear any witnesses concerning it, but they made an order allowing Cocker to file ex-parte affidavits to support his state and granting the same permission to the other side. No sub-committee will be sent to Florida, to continue the investigation of other matters there.

No action was taken to-day in regard to sending a sub-committee to Louisiana. The Republican members have selected Cox, of Ohio, to represent them on any sub-committee that may be sent to Louisiana. Blackburn will probably accompany Potter as the second Democratic member. It is supposed that the additional investigation in Louisianna could be completed within a week or 10 days. Butler was not present at the meeting to-day and no allusion was made to the cypher telegrams. The committee are to meet again next Wednesday.

Death at a Card Table--Store Robbery--Death.

MURPHY, N. C., Dec. 11.

Correspondence to the News.

Some days ago Wesley Thompson and Henry Palmer, colored, the latter an ex-convict of this State, got into a difficulty, the result of a game at cards, when Thompson shot Palmer through the body just above the hip with a pistol. Palmer is dead and Thompson was arrested and placed in Murphy jail, where he remains to answer the charge of murder, as rendered by the jury of inquest.

Monday night the store of Cooper & Akin was bored into and entered, the money drawer taken out and some mutilated currency missing. They did not find the new drawer, and hence missed the money. If any goods were taken it is not fully known. Yet they suppose that the parties took something. To-day Constable B. B. Meroney brought Avery McDonald and Allen Sudderth, colored, before Mr. S. W Davidson, Justice of the Peace, and on examination they were adjudged guilty and committed to jail in default of bail in the sum of $200 each.

Capt. Paschal C. Hughes, one of our most respected citizens, died here at his residence at 12 o'clock yesterday. He had been suffering with consumption for some years. He went to Florida in the fall of 1876 and remained until last spring, when he returned to his old home, at this place, where he remained until his death. He was a lawyer by profession and a good citizen. Capt Hughes married a daughter of Col. H. H. Davidson of this county.

Rents Ought to Come Down.

RALEIGH, Dec. 16th.

Correspondence to the News.

A word to the landlords and property holders of the city of Raleigh, just now, may not be out of place. These are indeed hard times, such as none of us have ever seen before; how long they will continue is now beyond conjecture or prognostication. The shrinkage of values in everything the curtailing of incomes, the reduction of wages, the cutting off of salaries, in almost every way rendering the making of money a desperate thing, has forced even the men of means among us to put the brakes on, and watch more closely their expense account while men of scanty means and limited incomes have been forced into a most rigid economy indeed, and to make a living for themselves and families is taxing all their energies both of mind and body. Men who rent houses, and make city property valuable at all, are of this class of our citizens. To expect them to continue, such times as these, to pay rents that were comparatively high, even in good times, is simply asking too much, and more than they can do. Men like them can only pay so much; compel them to pay more, and you drive them out. Drive your tenants out, and what will your property be worth? Force the people now living in rented houses in the city of Raleigh, by exhorbitant rents to leave it, and where will you get your rents? Profits in all business now are merely nominal; ought it to be expected that the safest investment of all, that of real estate, should be an exception? Certainly not. The depression should touch everything, and as it is a common calamity let all have their share of it. Rents have come down everywhere all over the north, all over the south, and all North Carolina, except in our blessed little city, and in the name of common sense why not here?

I heard a gentleman say the other day houses were renting in Fayetteville for less than the taxes on them, and in Wilmington it was not much better. Why, we house renters had better all move there! I have no sympathy or respect for the communist or red republicanism in any form, but I must think it would be better for property holders here as well as every where to adopt the golden rule of "live and let live."

A RENTER.

Great Snow in the West.

Dispatches from central and western Missouri, Iowa and Kansas say the heaviest snow storm knewn for years has prevailed during the past twenty-four hours. The depth of the snow varies from ten to thrity inches, and in some localities is very badly drifted. The railroads are generally obstructed, and some of them have been obliged to stop running trains altogether. As Lexington, Mo., and other placet schools are closed and business suspended. At Fulton and Rock Island the Mississippi river is frozen over, and people walk across on the ice. A sleet storm prevailed at St. Louis Thursday night.

Common Carriers.

Washington Post.

The resolution offered at the United States board of trade, concerning the question of the responsibility of common carriers and which was adopted, is one of unusual importance and direct interest to every shipper and receiver of rail freight. The whole matter resolves itself into the necessity of some absolute rule or law, to make receivers liable and to protect shippers, and to this end the resolution and action of the United States board is directed. The action of the board has been laid before the appropriate committee of Congress, favoring a systematic and thorough revision of the tariff by a competent commission.

English Emissaries at Work.

The Agence Russe, of St. Petersburg, commenting upon the statements made by the foreign papers in reference to the movements of Gens. Abramoff, Lomakine and Ivanoff, declares that the two latter occupy the military district of of Samarcand. Gen. Lomakine has construted a fort at Kyzilchachme, one hundred and thirty miles southwest of the Caspian sea, in order to keep the Tekke Turcomans in order, who, according to the Agence Russe, were incited to rebel by English emissaries.

Swiss Cheese Makers at Asheville.

Asheville Citizen.

A party of Swiss gentlemen, Messrs. David, Durand, Morier and Corthrey, have bought some valuable property, —one of the finest dairy farms in the United States, and purpose establishing a Swiss cheese factory, which is pronounced by connoisseurs to be the best cheese in the world. These gentlemen have the energy, experience and capacity to make this enterprise a fine success; and we are sure the farm will yield all they will require of it by good management. We wish them great prosperty.

Our Sunday Washington Letter.

By "Our Mrs. Grundy."

WASHINGTON, D. C., Dec. 14.

This sinful world is growing better. There is less scolding in the pulpit nowadays than formerly. The furious wrangler has given way to the Christian artist. The time has been when the pulpits were filled with fanatics and wild men—when nearly every preacher wore epaulets, swords and pistols, and was not regarded orthodox unless he fired rhetorical broadsides and sent a platoon of enemies into imaginary grave yards. Optimism. That's the word. No souls are saved by scourging. The Saviour himself loved all, and hated none. The Catholics lose few of their followers because they hold even the sinner to the warm bosom of their pardoning policy. These thoughts are suggested by a sermon I heard last Sunday.

"THE WORLD OWES THEM A LIVING."

I am not scolding, kind reader "Mrs. Grundy" never scolds. This beautiful and ungodly city of fine churches is the nursery of one of the vices of modern civilization. The conspiracy to live without work—doubtless conceived by a Washington boarding house keeper—is attaining portentous proportions here. Thousands who would blush to be caught carrying a market basket would lose all the comforts of a good dinner rather than help themselves. They neither know nor care for the pleasures of labor. They live well and dress well—out of the vast crucible called debt. The only thing they fear is work. They are genteel tramps. "The world owes them a living."

BLAINE'S BLUNDERBUS

Mrs. Grundy is humane. Her curiosity may never provoke a premature collapse, but it was strong enough to induce a visit to the Senate Chamber last Wednesday, it being the grand occasion of Mr. Jim Blaine's widely advertised bloody-shirt (to use the elegant vernacular of Democratic vituperation!") oration. The most reputable thing about Jim Blaine is his honored ancestry. His mother was a good, but obscure Irish woman. That he has not followed the teachings of that honest and simple-minded old mother is not her fault. Jim was born, unfortunately, in Washington county, Pennsylvania, in the unlucky year 1830. He was seduced from the paths of rectitude while editing the "Portland Advertiser." A friendly colemporary of his assures me that he was a simple-minded, honest, (as the word goes,) youth until he became the editor of a Maine newspaper. In the dirty little office of the "Advertiser" he conceived and nurtured the idea that he was a leader among men. He is insane on that subject to-day. The cold-blooded, metalic Edmunds sneers at his leadership. The proud and festive Roscoe (Conkling) disdains him. But he has his toudies in the Senate. He is a good hater. He is a typical New England politician. Nature has wisely contracted the muscles of his jaws, so that "only the right corner of his libelous mouth opens when he talks. His attitude when speaking is that of a bronze statue. His voice clinks. In appearance he is not unlike Ex-Associate Justice Rodman, of your State, I am told. Jim is an artful fellow. Some people would call him a scoundrel. He got out of the House of Representatives to escape investigation and certain exposure, which cost him the nomination at Cincinnati. He is a pious, christian statesmen—according to New England ideas of those exalted virtues. With all his perverseness, unscrupulousness and brazen-facedness one likes to hear him talk. He does talk well. There were hundreds of Mrs. Grundy's (besides your own valued contributor) to hear him bid for the Presidential nomination in 1880. He wore a close-fitting french diagonal coat. His speech was read from a small printed tablet. He spake with a clear cut voice and with some emphasis. His peroration was applauded because it is fashionable to applaud perorations. A speech without a perovation is unworthy the space it occupies in the Congressional Record. Can I put it any stronger? For thirty-five excruciating minutes I listened to Jim. [Mr. Blaine is an old friend and school mate, and I therefore call him by the dear old name of better days.] I suppressed a long breath as he finished to hear the comment of an intelligent looking, well-dressed African near me. He said: "I take no stock in that. It means slavery to the Republican party." I clapped my hands and I fear now that the demonstration was mistaken for applause. I tarried long enough to hear the Ohio statesman and the next Democratic candidate for the Presidency, agree with my African neighbor. Mr. Thurman's speech suited the Democrats. It was mild, conservative and cautious, albeit there is in it a bid or two for the nomination that was to be expected. Unquestionably he is the "coming man"—at this writing.

THE HOUSE.

I love to linger in the House. They have a devil-me-care way of doing things that pleases me. The members wear slouch hats, striped hose, flashy neck ties and smoke American cigars. I always go to the House for inspiration. I feel like a patriot. I take my seat in the gallery with the consciousness that I am one of the people. Then, the House has a social distinction. Members embrace each other, sit in each others laps, joke each other and smile—at the gallery gods—or goddesses! Speaker Randall, too, is an attraction to the connoisseur in polite literature. His elegant and scholarly diction charms me inexpressibly.

ANOTHER ONE.

They were talking about Thurman as the next Presidential candidate. Everybody said Thurman was a great man. Yeates said he could easily account for it. He had a North Carolina mother. It is nothing uncommon for North Carolina to furnish Governors, Senators and Judges for other States. "Yes," said Representative Reagan, of Texas, my mother was a North Carolinian. She was a Lusk and was born in Buncombe county. Her father lived at the Shallow Ford on the Yadkin river, and died at the green old age of 110 years. His name was Roberts." [There are few stronger men in Congress than Mr. Reagan. His management of the inter-State Commerce bill, which passed the House on Wednesday, marks him a sagacious and able Representative.] Yeates then related this incident:

PERSONAL.

Ex-Congressmen Francis E. Shober, J. M. Leach and State Senator George Everitt, of North Carolina, are in the city.

Henry G. Williams arrived to-day and was sworn in as Superintendent of the Document Room under Door Keeper Fields.

J. Williams Thorne, of Warren, is nosing around the White House after a consulship.

Ex-Gov. Brogden has elegant apartments at the National. He retires gracefully from Congressional life.

The contest for the Secretaryship of the Senate is between Senator Dennis, of Maryland, and Congressman Waddell, of North Carolina.

Ex-Congressman Shober meets many of his old friends who shake him cordially by the hand and call him "Frank."

The versatile and accomplished Mr. Cicero W. Harris, of the South Atlantic, Wilmington, is in the city.

A word from Congressman Waddell saved Mr. Brink his commission as Postmaster of Wilmington.

Your venerable historian, Col. Wheeler, is now engaged in writing a biographical history of North Carolina. He is devoted to the State of his nativity and is proud of her people. His present labor was suggested by President Battle of the University. He lives on Grant Place and is surrounded by all the comforts of an elegant home. On his silver door-plate you will read "John H. Wheeler, North Carolina." The striking resemblance between McCullough, the eminent tragedian now at the National Theatre in this city, and Solicitor General Phillips, of North Carolina, has been remarked by several.

Mr. Martin, the new member-elect to the 46th Congress, whose seat I am informed will be contested by Mr. Yeates, was in the city last week. He was happy. He settled the vexed question of how Mrs. Senator Bruce shall be received in Washington official society. He took a social glass with two of his colored constituents at the Metropolitan bar and with one of the stalwarts on either side of him aired himself in a prom. on the av. While here he sought the distinguished honor of an introduction to the august chairman of the committee on elections. He spoke of himself as "the follow that beat Yeates." "How much majority? inquired Mr. Harris 51, was Martin's reply. "Why that's nothing," remarked Mr. Harriss. "It is a common thing, they say of my committee, to overcome 1000 majority." Martin smiled—afterwards.

The Massachusetts Style.

Washington Post.

It is stated, on good authority, that some Massachusetts men, who listened to the Senate debate last Wednesday, were thrown into consternation by Blaine's assertion that, in their state, not a case can be found in which a voter did not have the fullest, fairest and freest opportunity to vote as he saw fit. One of these gentlemen from the Bay state cited a case of a manufactrurer, employing several hundred men, who ordered them all to bring their dinners on election day, and stay in the mill all day, in order to finish a piece of work in hand. Some of the workmen presumed to suggest that there was voting to be done, and they would like to take a hand in it, but would not be absent more than half an hour; but the unbane proprietor replied that, "election or no election, no man who went out of the mills on that day need take the trouble to return." This case and others of a similar character, will be brought to the attention of the investigators.

New Orleans Like Venice.

It is now proposed that instead of making New Orleans and vicinity another Holland by draining the marshes and reclaiming swamp land, the city shall become another Venice. The plan is to remove the dykes and let the water of the Mississippi flow through the streets, thus substituting clean water for sewage and marshes. The level of the entire city would need to be elevated, in a manner similar to that in which Chicago was raised from the mud, a work said to be quite as difficult from an engineering point of view. In estimating the cost of the plan, the fact that the present expense of watching and keeping in order the dykes would be stopped, is to be taken into consideration. Whether the marshes and other lurking places of yellow fever are made dry land, or the beds of streams, is immaterial, so far as the improvement of the sanitary condition of the city is concerned. It is their half-and-half condition which makes them dangerous.

The National Department of Health.

The bill that Senator Lamar introduced on Tuesday, "to establish a department of public health," provides for the establishment at the seat of government of a department of health to acquire and diffuse among the people of the United States useful information on subjects connected with the public health; to direct the management of efficient and sanitary quarantine systems and regulations throughout the several States and territories. It authorizes the appointment of a director-general of health at a salary of $7,500 per annum, who shall perform all the duties and exercise all the powers now devolving upon the supervising-general of the marine hospital service, and that that office shall be abolished. The director-general shall also make and enforce all quarantine and all other regulations for the prevention of epidemic diseases, and shall prepare suitable tables for the taking of each census, and have power to employ persons of proper scientific knowledge and skill to make special investigations on subjects of cases connected with the department.

Her First Loss.

Queen Victoria has at last lost one of her children, and the charm is broken. Princess Alice, married to the Duke of Hesse Darmstadt, who had been very low from an attack of diptheria for some weeks, died on the day the anniversary of the death of her father took place. She was the third child of the Queen, and her age was 23 years. Her death is most notable as the first among the numerous children of the family The event will throw the whole British empire into mourning, and gloom will brood over the court and gay circles of the United Kingdom.

"Darling Love He Once Again," Is the title of a new piece of sheet music, edited and published by Mr. Henry C Wyatt, of Richmond, Va. Aside from its claim as a Southern production, we can cheerfully recommend it, after a thorough trial as a ballad of rare merit and exquisite sweetness. Mr. Wyatt is the author of several others, viz: "Do you think I could forget thee," "Treasured friendship," "Father's hair is turning gray," etc., which we have never had the pleasure of trying, but this last, we predict, is destined to win its way into popular favor, and at once stamps its author as a poet and musician of no small merit. *

$4,000,000, to be Given Away.

The Mutual Life Insurance Company of New York, besides its vast assets of $85,000,000, ($22,000,000 more than all the Banks of New York combined,) has accumulated about $4,000,000 from lapsed and surrendered policies since 1873 which agrees to give to new applicants for insurance as follows, viz: 30 per cent, of the premium the 1st and 2nd years, on Ordinary Life Policies, and 15 per cent. on term or Endowment Policies. The dividends in this company have for more than 10 years averaged 37 per cent. 2 years dividends will be deducted from the 3d years premium. Hence the great demand at our office for policies and the terrible howl among the smaller Insurance Companies. For particulars and policies apply by letter or in person to P. F. Pescud, General Agent for N. C., Raleigh, N. C. *

Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

DAILY NEWS

TUESDAY,..... .....,DECEMBER. 17, 1878

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Stree

The bill introduced by Gen. Scales, and published in the News, makes the silver dollar the unit of value. This saves the dollar of our deceased parents from depreciation. It remonetizes silver. It makes the silver dollar a legal tender and establishes silver as the unit of value. This is feasible, and more sensible than Mr. Fort's, resolution declaring it "defiance of law" for a national bank to refuse to receive silver dollars on deposit, and directing the Committee on Banking to report a bill providing for the withdrawal of its circulation from any bank guilty of this "defiance." The chief aim of General Scales' bill is to fully remonetize silver. The existing depression, in a large degree, is ascribed to the demonetization of silver by Germany and the United States in 1873. It is reasoned out in this way: All staple articles were greatly increased in Europe by the discovery of the silver mines in Mexico and Peru. So in the United States, upon the discovery of the immense quantities of gold in California. The demonetization of silver practically reversed this operation. It virtually declared that instead of the volume of the money of the world being steadily increased by annual additions of hundreds of millions of coins, the counter-movement of striking from the list of available specie funds silver coins worth many millions should be commenced. The effect is to increase the burdens of debtors. But the money-lenders are benefited. Hence the spirited revolt against any attempt to remonetize silver by the New York banks. Hence the bold attempt to defeat the legislation of the last Congress. It means, in so many words, inflating the value of the obligations of debtors, while contracting their means of payment. A very stupid man can easily forecast the result. We trust that General Scales will press his bill to a vote.

If his constituents thought they were sending a statesman to Congress they made a big mistake in electing Mr. Page. Mr. Page hails from the Pacific slope and is the author of the bill published in the News to disfranchise the negro in South Carlina. It may be lost on Mr. Page to inform him that the Fourteenth Amendment is res adjudicata. The Fourteenth Amendment, in providing that when the rigut to vote is "denied" or "in any way abridged" to any of the male inhabnants of a State, the basis of representation shall be proportionately reduced, refers to denial or abridgment by State legislation. The right to vote cannot be denied or abridged by cheating or violence at the polls, or by any illegal course. The right to vote is a legal right, which only the law can take away. According to Republican authority the negro in South Carolina has been made the victim of a criminal offence under the State law, and what Mr. Page proposes to do is to aggravate his grievance by diminishing his weight in Congress. Moreover, how would he ascertain the number of persons who were deprived of their vote? And how could he show that because they were prevented from voting at one election they would never be allowed to vote again at any other? In his zeal to disfranchise the negro, now that he chooses to exercise the right of an American citizen, Mr. Page makes himself ridiculous. The negro will continue to vote as he pleases, despite the puny and farcical efforts of Blaine and Page.

It may be that the country derives a large economy from the National Banking system in the saving in domestic exchange. It is claimed that under former systems the rates of exchange between St. Louis, Cincinnati, Chicago, and New York were commonly from ten to fifteen dollars per thousand (1 to 1½ per cent,) whereas, now they are frequently at or under par, and do not exceed an average of eighty cents per thousand, or less than one-tenth of one per cent. The Comptroller estimates the annual saving thus derived by the country at from twenty to sixty millions of dollars. The extreme rates of exchange which used occasionally to prevail far exceeded the ordinary averages above given. Thus, in 1860, before the war, exchange at St. Louis and Chicago on New York was at ten per cent.

It may be that those who join in the popular outcry against the National Banks clearly do not understand the advantages which the people have gained from this system. For instance; in place of bank-notes which were either unsecured and practically redeemable, or secured only by doubtful State stocks or local mortgages, and redeemed only at the obscure places of their origin, or at remote local centers—notes which were uncurrent money in the larger part of the country—they now have a currency of notes of uniform appearance and of equal value, prepared by the Federal Government and issued by it to the banks on pledge of the national bonds. These notes are convertible into gold and silver at many convenient centers and have securities for their redemption such as were never put behind the paper money of any country. These securities are not merely the Federal bonds deposited against the bank-note issue, but the entire assets of the banks, buttressed by a personal liability of stockholders and the guaranty of the Federal Government to boot. It may be that we do not know, or fail to appreciate the fact, that in place of banks created under the laws of more than thirty States, we have a single homogeneous system free to all on the same conditions. But the plainest mind will readily comprehend the scope of the following bill, which Mr. Davis, of North Carolina, will introduce and press to a vote at the earliest day:

"Whereas, The only legitimate purpose of Federal taxation is to raise revenue to pay the debts and provide for the common defence and general welfare of the United States.

And, whereas, It is an abuse of the taxing power confided by the constitution to destroy any legitimate business or interest by taxing it out of existence.

And, whereas, monopolies sustained by discriminating legislation for taxation against any particular class or interests of American citizens engaged in the same kind of occupation, are contrary to the genius of republican government, and so far as such taxation is concerned, clearly in violation of the constitution.

And, whereas, The tax of ten per cent. on State banks and banking associations produces no revenue to the government but is for the sole purpose of securing a monopoly of banking business to a single class of property owners to suit the owners of national bonds, thus making them in a great degree to control the value of money and the prices of all other species of property; Therefore,

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section thirty four hundred and twelve (3412) of the revised statutes of the United States (the same being section —— of the the National Banking Act, imposing a tax of ten per cent. upon the amount of notes of any person, or any State bank, or State banking association, used for circulation and paid out by them, be, and the same is hereby repealed."

Says the Milton Chronicle: "It is now said that the bill of indictment filed at the last term of the Wake county Superior Court against Geo. W. Swepson, for swindling the Western North Carolina Railroad, was instigated by Vance's friends to make capital against Merrimon who was Swepson's attorney before he was elected senator. The object is to create public feeling for Vance on the assembling of the legislature. Too thin! It won't work."

It would be well enough for the editor of the Chronicle to have the facts before making insinuations against Gov. Vance, as is his weekly habit. The bill of indictment was not "filed" at the "last term of Wake Superior Court;" but was a presentment of the grand jury of Wake county on the oath and at instance of Gov. Caldwell, June term, 1874. The indictment was against both Swepson and Littlefield and the Legislature prepared an act to enable the Governor to continue the prosecution against Littlefield. How a verdict was procured "by management and fraud," and how the case comes back upon the docket again, the editor of the Chronicle can be informed, if he will borrow from some lawyer a copy of the last report of the Supreme Court and read the case of the State vs G. W. Swepson. The bill was only amended as to form in the last criminal Court. It's a pretty state of things indeed, when a criminal prosecution for the embezzlement of $4,000,000, must be forborne lest it might damage somebody's political prospects! How can Judge Merrrimon be injured by such a prosecution? And if he could be, which we do not pretend for a moment is the case, is the Chronicle in favor of hushing it up? Better not jerk away your foot so nervously, or you may make people believe you have a corn on it.

MISCELLANEOUS.

SAVE YOUR HAIR! TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered fifty-odd years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles which the following is

A FAIR SPECIMEN.

I...had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequalled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and invigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

CIRCULAR SAW MILL.

LEVER FEED CUTTER.

Hege's Improved Circular Saw Mill, is not a new and untried saw mill, but is one that is well and favorably known in many sections, and wherever it is introduced it is fast superceding all others. It is simple in construction, yet reliable in operation, and is sold for less than any other first class saw mill. Send for descriptive circular

Lever Feed Cutter,

Something entirely new and novel in the feed cutter line. With this cutter the feed is cut off diagonally, instead of square across, as is the case with all other cutters at the same time our cutter has a draw cut, acts exactly on the same principle that a knife is used in cutting off a stick, consequently with our 10 Hogeol Feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.

Price reduced to $8.00. Send for circular. Liberal discount to agents. No goods consigned. Manufactured by the Salem Agricultural Works, Salem N. C.

DAILY NEWS
TUESDAY.....DECEMBER, 17 1878

Events in the State.

PITT—Greenville Express: There is a great deal of talk about building a railroad..... The Jarvis Light Infantry are attaining great proficiency in drill.

CALDWELL—Lenoir Topic: The work on the Narrow Gauge Railroad has been completed near town, and the hands were moved on Tuesday to their new quarters near Jones' store, six miles from town.

GASTON—Lincolnton News: A serious accident occurred at the Duffy gold mine, near Brevard. Mr. Simpson, a miner, was timbering his tunnel, and a large rock fell from overhead and dislocated his left hip.

WILKES—Wilkesboro Witness: We learn that the surveying party will complete the survey of the Yadkin River in a few days, and will make a favorable report. Then let Congress give us an appropriation for the opening of the river for steamboats.

HALIFAX—Roanoke News: The Kitchin—O'Hara contested election case for this county was not heard here on Tuesday, the counsel on both sides having agreed that they would abide by the decision, in the case from Edgecombe, both suits having been instituted on the same grounds.

LINCOLN—Progress: The country schools are all open for the winter term, and the season of literary societies is at hand.....Pork is selling at 4½ cents gross; beef, 3 and 4 cents; flour at $2.50 per hundred. This looks like old times. Spirits and coffee still hold their own. The revenue officers are responsible for the one and high tariff for the other.

NEW HANOVER—Wilmington Star: An adjourned meeting of the members of the Bar was held at the Courthouse Saturday morning, at 10 o'clock, for the purpose of hearing the report of the committee appointed to draft suitable resolutions in reference to the death of Hon. Hugh Waddell.....Hon. Geo. Davis will soon deliver a lecture on "An Episode in Cape Fear History," in aid of the widow of Lieutenant Benner, U. S. A.

BUNCOMBE—Asheville Citizen: Gen. Vance is moving to correct the trouble we now have about our mail matter. An effort will be made to restore the mail to the Western road.....The Revenue officers are making things lively for the illicit distillers, and catch numbers of them. Well, the Governor offered an amnesty, to clear up old offences, and those who go at it now, after having had fair warning, ought to be taught to stand from under. Whiskey is the curse of the country. Let it be put down.

MECKLENBURG—Charlotte Observer: The exposition under the auspices of the ladies' building association of the Baptist Church, already referred to several times, will be conducted on a larger scale than anything of the kind ever seen in the city.——There are confined in the county jail at present seventeen persons, of whom three are white. Of these three, two are lunatics.....Mayor Smith, of Charlotte, proposes having a theatrical performance for the benefit of the Lee Monument Fund.....The proceedings of the Federal Court have been considerably hampered by the non-appearance of Judge Bond, of the Circuit Court, who is engaged in the election cases in Columbia.

Judge Thurman not a Candidate for Governor of Ohio.

Washington Star.

The Ohio newspapers for the past week or so have been persistently claiming that Senator Thurman will receive and accept the democratic nomination for governor of the State. Yesterday a representative of the Star visited the Senator, and said:—"Judge, I see your name is being generally used in connection with the democratic nomination for governor of Ohio. Are you a candidate?" Said the judge in response:—"To every person who has suggested to me that I should be a candidate for governor, I have reflected on the subject the better satisfied I am that the interest of the party does not require me to make that race, and certainly my own well being requires that I should not undergo the toil and strain of mind and body that a canvass for that office will necessitate. Besides, there are very worthy men in the party, either one of whom would make a good candidate, and whose friends desire their nomination; and it would be an ungracious thing in me to intertere with their prospects. There are other and very strong reasons why I should not be the candidate, but it is unnecessary to state them. Indeed, it is with reluctance that I say anything upon the subject, for there is a seeming presumption in declining a thing that has not, and may never be offered. But inasmuch as some of our papers have come out for my nomination, and I am informed by a letter from a friend at Columbus, received this morning, that it is rumored that they have done so with my approbation; it is proper for me to say that such is not the case, and that my mind is firmly made up not to run for the governorship.

Are They the Thieves Wanted?

New York World.

Captain Byrnes, of the Fifteenth Precinct assisted by Detectives Dolan, Graham and Slevin, last night arrested two bank burglars for complicity in the burglary on the Manhattan Savings Bank, on the morning of Sunday, October 27th last. They are John alias "Red" Leary, and John alias "Dutch" McCarthy.

Ever since the burglary suspicion has attached to three men. Investigation developed what is said to be positive proof against them and against one of them particularly. They kept themselves out of sight, but their haunts were discovered; their associates were traced and they themselves were watched. It was not deemed advisable to make a hasty descent upon them; evidence was to be accumulated and conflicting circumstances reconciled. McCarthy was one of the men suspected from the first. He has not such a reputation for ingenuity and daring as Leary. In heavy work in which he has participated he has taken only subordinate parts, but his acquaintance with the thieves' fraternity made him useful and important in those parts. The janitor of the Manhattan Bank was handcuffed by masked men. Two of them were left to guard him. He had a fair opportunity to study them; he heard them talk and got a tolerably good look at their features. An account of all the janitor saw and heard, his impressions and suspicions was given to the police, and upon that any other information obtained by them they built a theory of the burglars, "Red" Leary, it is suspected, was one of the masked men who stood guard over the janitor while the burglars were at work in the bank, but the evidence Captain Byrnes claims to have bears hardest on McCarthy. There is probably no complete proof against Leary, but a third man is still at large, who is said to be in pretty much the same category as McCarthy, and under surveillance.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. MCLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. MCLANE'S LIVER PILLS.

The genuine MCLANE'S LIVER PILLS bear the signatures of C. MCLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. MCLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

A CERTAIN AND SPEEDY

CURE FOR SCROFULA.

FACTS ARE STUBBORN THING

TRADE MARK TRADE MARK

(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some Scrofulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Nothing did him any good. At Kittrells they told him of Mrs. Person's recipe, and Dr. —— wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless the old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully

T. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

MOORESVILLE, IREDELL CO., N. C.

Being desirous of adding my testimonials to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any and ALL I have ever used. When I commenced using Mrs. Person's Remedy I was very weak, complection sallow, and now I am WELL.

Respectfully your friend,

MRS. H. T. BROWN.

Sept. 26 1878.

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any signs of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. B. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects, it should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,

JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and that not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and alterative, I do not think it has thy superior. I have been using all the most powerful alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,

J HN BUIE Box 141,

It is a cause of regret that a painful accident occurred to that esteemed gentleman, Col. McLeod Turner. While walking on the street Sunday he accidentally wrenched one of his legs. A HORRIBLE DEATH.

A Victim of Kerosene—Suffering and Death.

Sunday morning Prof. Powell, a colored barber, was at some trouble starting a fire in his shop. Thinking to hasten the ignition of the coal he took a gallon can of kerosene, and turning it up, poured part of the contents in the stove. He then put the can down on the floor, near by. A match had fallen on the floor, and he stepped on this. In an instant it ignited, setting fire to some oil drops on the floor, and then exploding the can, filling the shop with flames. The Professor was in his dressing gown which was covered with the flaming oil. He rushed out into the street, and yelled fire at the top of his lungs. Attracted by his cries and seeing his awful predicament, a crowd gathered. One of these, Mr. Greason, with a pocket knife boldly cut away the burning clothes, until hardly a rag remained. The unfortunate man was taken into his shop, when it was found that the lower part of both legs as well as of a portion of his back, was badly burned. He was carried home and a doctor dressed the wounds.

But dispite all the care of the physicians the injuries were so serious as to baffle either relief or cure, and the suffering of the poor man was intense. But death at length interposed and at 8.30 p. m., yesterday the injured man died. Powell was a native of Wilmington but came here some two years ago and opened a shop.

The Work of a Thief.

Sunday night a rogue entered the store of Moore & Thompson, in the Adams' building, through one of the front doors. The thief must have been scared off for when the room was entered yesterday, an iron bar was found sticking in the money drawer, and it was evident by the marks that attempts had been made to prize it open. The attempt was unsuccessful, and nothing was taken. Here is another warning to be on the lookout for rogues.

The Stolen Cotton Found.

Some days since a bale of cotton was stolen from the Fisher farm, three miles from the city. The police have been on the lookout for it, but their efforts were unrewarded until yesterday, when a colored man who looks after the deserted buildings at Camp Russell, informed the authorities he had found a bale of cotton in one of the houses there. Officer Goodwin went out and brought in the bale. The number and weight of the bale had been cut out, but soon after it was placed on exhibition, it was identified by Messrs. Mansfield and Weathers, the overseers at the farm, as the bale, and they were ready to swear to the fact.

Commendable.

Judge Seymour in the Tax Injunction cases announced from the bench that no one was entitled to the protection of the injunction except the original plaintiffs, and those who had since made themselves parties to the suit. As to all others, that it simply stood as if no injunction whatever had been sued out.

A majority of the Board of Commissioners were present, and after consultation caused it to be announced that they could do nothing officially until the next meeting of the Board, but that they expected then to pass an order for the sheriff to refrain from collecting the excess of tax from any taxpayer whatever and requested the sheriff to refrain from doing so in the mean time. This is highly commendable and proper on the part of the Board, as they were under no legal obligation to do so.

Y. M. C. A.

A meeting of the Young Men's Christian Association will be held this evening at 7:30 o'clock, in the room in the rear of the N. C. book store. A number of destitute and suffering persons have made applications for relief. No funds on hand and nothing has been done. The community expects the Association to dispense the same amount of charities this winter as was done last. The citizens are willing and ready to give and assist as they have always done. A meeting has been called on two previous occasions and for want of a quorum nothing could be done. It is not only a christian duty, but an act of humanity that compels the members to be present at this meeting.

Katie Putnam.

The performance of this artiste at Tucker Hall last evening in her rendition of "The Old Curiosity Shop," was witnessed by a small audience. The characters of Little Nell and the Marchioness were quite well taken, while the play, in general, passed off creditably. This eveing La Cigale will be produced. It is said to be interesting.

Wine Products of New Jersey.

This state is becoming celebrated for grape culture and wine. One of the richest port in the world is produced in New Jersey by Mr. Alfred Speer, whose name has become celebrated as a producer of strictly pure unadulterated wine. The Sparkle Wine of Mr. Speer was awarded the highest premium at the centennial is not bottled or put in market until it is four years old, and has become thoroughly fine and mellow. It has proved itself a wonderful assistant to physicians, who prescribe it from the fact that they have hitherto found it difficult to obtain a pure Port Wine. This wine is recommended for debilitated persons; and is given to consumptives to use with fresh raw eggs, and as a medium for taking cod liver oil. With the difficulty of getting an imported or even a pure California Port is well understood to be so great as to preclude Doctors from allowing their patients to run the risk of its use. Mr. Speer being aware of this fact has taken the utmost care in the making of his wine from the ripest and finest grapes, so as to supplant the imported wines by producing a genuine article. His wines are known by enemas to be pure and the most reliable for medicinal purposes. The Druggists throughout the country sell it as bottled by Mr. Speer—N. Y. Tribune. The definitions are clear, and the analyses exhaustive. The work is practical, and abounds in slate exercises. The experience of a large number of the best teachers in this country is final, with Sanford in hand, pupils discover an unwonted enthusiasm in studying the science of numbers.

The Complete Series of Worcester's Dictionaries.

Worcester's School Dictionaries are based upon the quarto, which is preferred over all others by eminent scholars and men of letters. The series is admirably adapted to use in Schools, Academies, &c.

Liberal terms for introduction. We desire that Sanford and Worcester be examined by County Boards and principals of private schools. Correspondence solicited.

We invite attention of Teachers to Chauvenet's Mathematics, Cutter's Physiology; in a word, all our School publications. Circulars and descriptive catalogue furnished on application.
